

Learning Care Group

A refreshed brand for a family of nurturing and inspiring schools

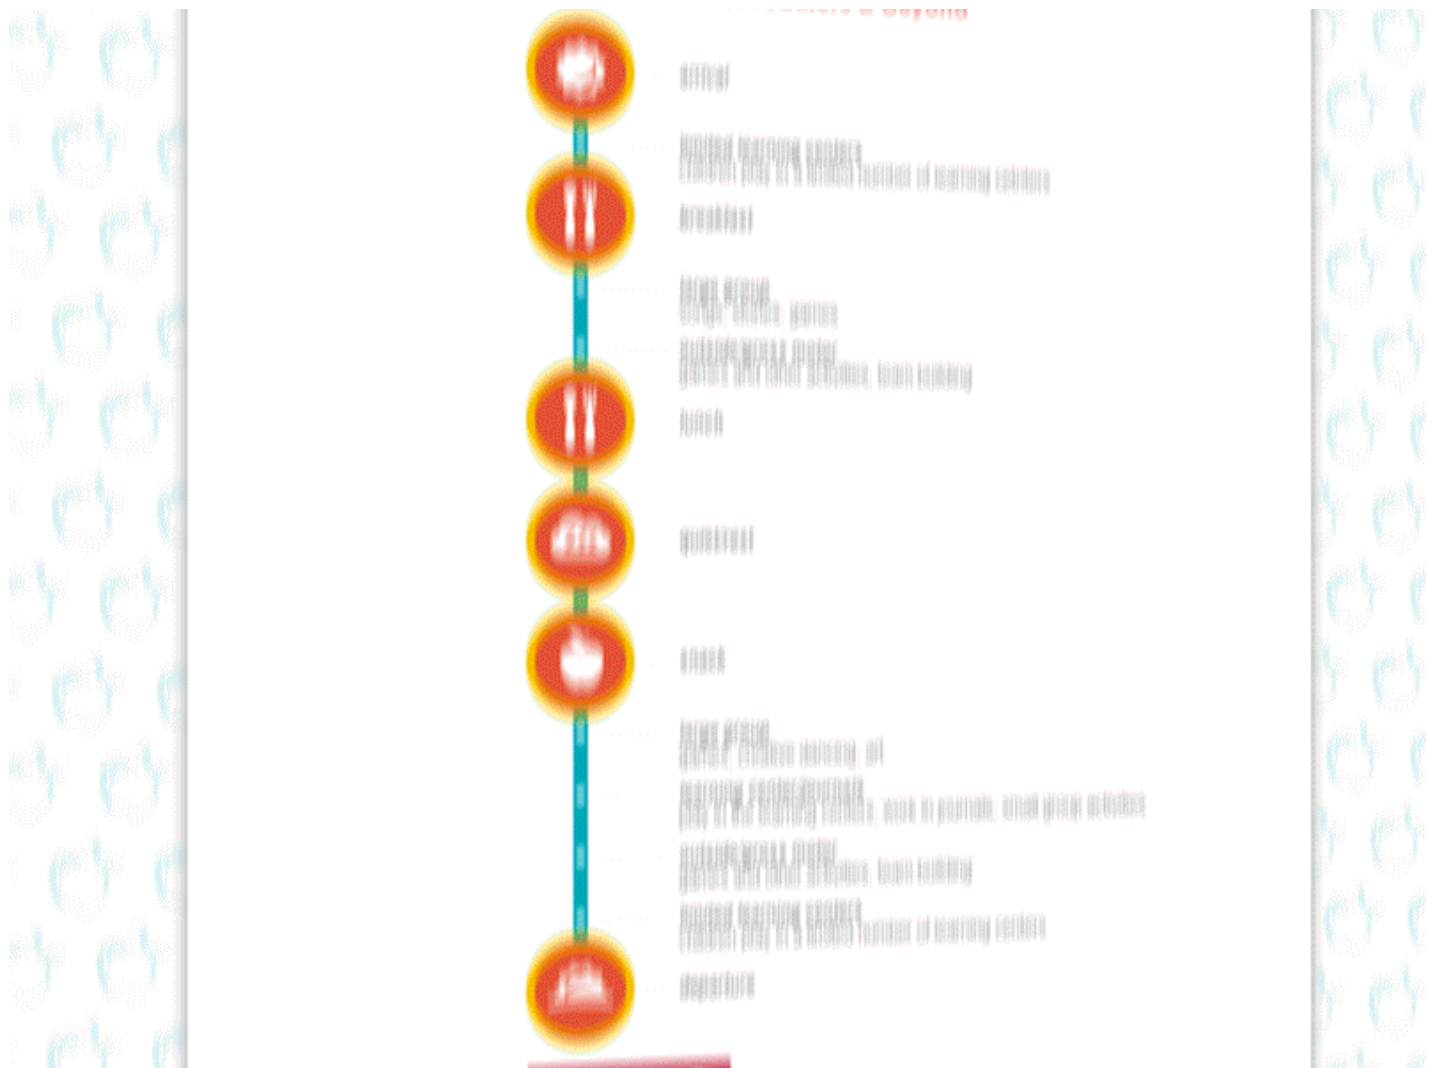

I worked on the design for [Learning Care Group](http://www.learningcaregroup.com) (<http://www.learningcaregroup.com>) homepage while at [Perficient Digital](http://www.perficientdigital.com) (<http://www.perficientdigital.com>) (formerly Enlighten) in the beginning of 2016. I was responsible for the .com concept and design, animation for commercial spots, and animating individual brand logos.

The above is a advertisement made for Learning Care Group's various brands. Original footage shot by Enlighten, while I handled timing, edits, and animation.

While creating the updated Learning Care Group website, I explored various page interactions and effects. The above was an exploration in using parallax scrolling subtly while creating image depth in browser.
